

George Kaichis Joins WireE Team as Director of Radio Network Services

Richmond Hill, ON (Sept. 22, 2009) – WireE Holdings International Inc. is pleased to welcome George Kaichis to the team as Director of Radio Network Services.

WireE is a global provider of IP-based broadband wireless network solutions. With unique expertise in wireless/IP integration, WireE offers whole product solutions in support of many wireless and carbon neutral technologies including but not limited to WiMAX, GSM, UMTS, CDMA, and EV-DO. In addition, WireE has in-depth knowledge and experience in the design and deployment of IP-based point-to-point and point-to-multipoint microwave networks.

"I am thrilled to have such an accomplished professional join our team. George will leverage our Radio Frequency (RF) Services offering for future growth in LTE, and reinforce WireE's position as a centre of excellence", said Robert Barlow, President & CEO of WireE.

Kaichis, an Ontario-licensed professional Engineer, brings over 20 years of proven telecom experience at major Canadian wireless operators, most recently at TELUS as Director of Contract Management. He was previously the Director of RF Technology, where he was responsible for evaluating and selecting new wireless technologies and vendors.

Kaichis will be focusing on managing RF design, network extensions, and network transformations in Canada and the Caribbean.

Kaichis has worked with many technologies such as CDMA, 1xRTT, EV-DO, UMTS, iDEN, and holds a Bachelor of Applied Science degree in Electrical Engineering from the University of Toronto.
